---

**Full Stack Web Developer** with a background in education demonstrating strong communication and problem solving skills. An excellent collaborator and quick learner who is an effective member and strong team player on any team-based project. Displaying a keen eye for detail and strong focus on solving problems and continual learning for ever improving performance and understanding.

## TECHNICAL SKILLS

HTML, CSS, JavaScript, Node.js, Express, jQuery, GIT, GitHub, MySQL, Sequelize, Handlebars, Bootstrap, Bulma, APIs, Heroku, ES6+, React.js, JSX, MongoDB, Mongoose, Axios, Material-ui

## PROJECTS

### Learning Link | Full Stack Developer |

Github Repo Link: <https://github.com/karenastell/learning-link> |

Github App Link: <https://ancient-brushlands-96177.herokuapp.com/>

App that connects students/parents with available tutors and allows live chat messaging

- **Role:** Collaborated with a partner to design the full stack application utilizing the React javascript library. Implemented multiple role authentication, created database models and table relationships, coded the front and back ends for the login, profile page, tutor signup form, Calendar, and dashboard, and assisted in setting up and debugging the use of socket.io for messaging.
- **Utilized:** React, Javascript, Node.js, MySQL, Sequelize, Axios, Express, Socket.io, FullCalendar.io, Passport, Bulma, CSS

### Recipe-Box | Full Stack Developer |

Github Repo Link: <https://github.com/Kaleighspurio/Project2-Recipe-Box> |

Deployed App: <https://fast-mountain-43531.herokuapp.com/index.html>

Recipe App that allows the user to view and store recipes in a database.

- **Role:** Lead the team and designed SQL database, created Models and set up table relationships, used Sequelize for CRUD actions on the back-end. Worked closely with the front-end team on functionality, style, and debugging.
- **Utilized:** HTML, CSS, Javascript, jQuery, JSON, AJAX, MySQL, Sequelize, Node.js, Bootstrap, Nodemailer, Express, Express-Fileupload

### My Bookshelf | Full Stack Developer |

Github Repo Link: <https://github.com/Kaleighspurio/Book-App> |

Github App Link: <https://intense-eyrie-62668.herokuapp.com/>

App that allows users to search books by author and/or keyword and keep track of their reading.

- **Role:** Sole developer on the project. Set up database models, configured all the front and backend routes, implemented authentication, created all frontend content and styling.
- **Utilized:** React, Javascript, Node.js, MySQL, Sequelize, Axios, Express, Google Books API, Passport, Material-ui, CSS

## EXPERIENCE

**Knownpoint Technologies;** Concord, NH 09/2020 – Present

### **Full Stack Intern**

Collaborate with a small group of interns overseen by the CTO in an agile environment to develop a serverless application that uses AWS services and React.

- Create reusable React components and implement features on the customer portal of the Known Point application.
- Develop skills and understanding of behavioral driven testing, AWS services, and Python
- Gain familiarity and experience with Agile Methodology

**Pinkerton Academy;** Derry, NH 08/2017 – 08/2020

### **Special Education Case Coordinator**

Effectively collaborated with other teachers to meet the needs of many different types of special needs learners while providing additional and supplementary instruction to special needs students and maintaining and coordinating Individualized Education Plans and Services.

- Demonstrated excellent communication skills with staff, students, and their families to promote a positive and productive working and learning environment.
- Recognized for leadership skills and consistent performance and leadership potential.
- Developed and shared resources and materials with fellow case coordinators

## EDUCATION

**Full Stack Web Development Certificate | University of New Hampshire, Portsmouth, NH | 2020**

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express, React.js, Node.js, Database Theory, MongoDB, MySQL, Mongoose, Handlebars, JSX, GIT, Github, APIs, Heroku, Es6+.

**Masters of Education - University of New Hampshire, Durham, NH**

**Bachelor of Arts in Teaching - University of New Hampshire, Durham NH**
